NMTC Announces 2016's Visionary Awards Honorees

Havre de Grace, MD. – What happens when you mix research scientists, computer engineers, college deans, engaged parents, and teachers? You get explosive applause from the hundreds of attendees celebrating this year's Visionary Awards honorees.

On February 25, 2016, join NMTC and the STEM community at the Richlin Ballroom for NMTC's Visionary Awards Gala. Celebrating with STEM heroes past and present, we will honor our neighbors, colleagues, family, and friends for their tireless efforts to help the children of northeastern Maryland embrace, grow, and thrive with Science, Technology, Engineering, and Math.

Visionary Awards honorees are building tomorrow's globally competitive, STEM educated workforce. They are encouraging our children to reach farther, think bigger, and dream boldly. Their students and mentees will be the people advancing new technologies, bringing innovations to life, protecting our national security, and expanding our state economy. This year's gala honors these amazing individuals:

The Best in STEM Education and Technology Innovation

Top left to right: Denise Carnaggio, Christine Zatalava, John Mayhorne, Sarah Voskuhl, Susan Kipp, Greg Fox, and Dr. Rose Pesce-Rodriguez
Bottom left to right: Omar Savory, Kelly Mangum, Christina Bryant, Jan Stewart, Kimberly Bowers, and Nicole McKew
